

Welcome to The Wood Floor Depot located in the Blue Ridge Mountains of southwest Virginia.

The Wood Floor Depot was founded to manufacturer Final Touch Hardwood Floor Filler. Our mission is to provide the highest quality and custom products at the lowest possible price.

When comparing Final Touch Hardwood Floor Filler to our competition be sure to compare apples to apples and you will find that we are in a league of our own but don't take our word for it just ask someone that has used our product and remember Final Touch is not just a wood filler it is an all in one solution as you will see as you explore this brochure.

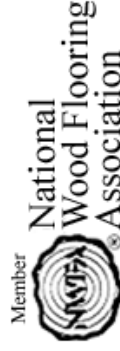

Don't let the Final Touch price fool you because the best product on the market does not always have to be the most expensive.

# Final Touch™

## HARDWOOD FLOOR FILLER

Manufactured in the United States, Final Touch™ is a water based wood filler that can be used for all wood repairs including, wood patching, repairing edges, trowel and grain filling, and spot patching. Final Touch™ has an indefinite shelf life and with its patented easy on easy off lid can be used over and over again.

With two shades in each container Final Touch™ can mix multiple shades because no wood is just one color. You can also make your own color using any water based stain, tint, or universal colorant.

Available in Red Oak, White Oak, Yellow Pine, Maple/Ash, Hickory, Walnut, and Knot Hole. Call for custom colors.

## Features and Benefits

- Cheapest wood filler on the market.
- Water based just add water and stir.
- The amount of water added determines the consistency. Spread and thin with water.
- Two colors in each container to make a variety of different colors or mix your own color by adding any water based stain, tint, or universal colorant.
- Can be used for all interior repairs including: repairing edges, trowel and grain filling, and spot patching. Is water based so it dries quickly.
- For faster drying a heating device, gas or propane heater can be used. Easily stains and accepts finishes and protects your investment accepting many finishes including waxes, oils, oil-based, water-based, and moisture-cure.
- Environmentally friendly.
- Indefinite shelf life so there is no waste, just add water and it's ready to use. If Final Touch™ freezes it can still be thawed and used.
- Will not gum/block sand paper.
- Will not shrink, sink, crack or fall out if used as directed.
- Manufactured in Galax, Virginia.

**PRIVATE LABELING AVAILABLE!**

## How do we compare?

	<i>Final Touch™</i>	Other Wood Fillers
Applications	Wood Filler, grain filler, trowel able filler, sanding sealer, and crack filler.	Can only be used as a wood filler. To do more you have to buy other products.
Product Life	Indefinite shelf life. NO waste just add water to soften. After freezing can still be used.	Hardens and has to be thrown away causing you to lose money.
Grain Filler	An ALL in ONE solution.	Others products cannot.
Value and Cost	CHEAPEST Wood filler on the market.	MORE EXPENSIVE with less uses.
Drying Time	Varies by use but can be forced dried.	Cannot be forced dried.
Range of Colors	Two colors in each container and you can make your own color using any stain, tint, or universal colorant.	Limited range of colors each color sold separately.
Custom Colors	Call for custom colors.	Does not offer custom colors.
